

PACIFIC COAST FOAM PROVIDES INTERIOR AND EXTERIOR ARCHITECTURAL SHAPES AND ACCENTS FOR NEW HILTON GARDEN INN IN CARLSBAD

SAN DIEGO — January 30, 2001 — Pacific Coast Foam has completed the installation of custom architectural shapes and accents on the new Hilton Garden Inn at Carlsbad Beach, 6450 Carlsbad Boulevard in Carlsbad, according to Scott J. Buckley, general manager of Pacific Coast Foam, the largest supplier of expanded polystyrene (EPS) foam architectural shapes and accents in San Diego.

Interior accents adorning the 161-room hotel include a custom light-cove, column arches, crown moldings and window casing throughout the lobby, front desk and restaurant. Exterior shapes and accents included decorative potshelves, window surrounds, column details, rosettes and crown moldings. Pacific Coast Foam, which manufactured the custom shapes and accents for the hotel, worked closely with Emily Bebe of Bebe Designs, the project designer, and Sierra Woodworking, which contracted with Pacific Coast Foam to handle to installation.

"This project provided Pacific Coast Foam with an opportunity to manufacture a number of architectural shapes and accents that added beauty and grandeur to both the interior and exterior of the hotel," Buckley said. "In addition, we were also able to contribute valuable expertise to the project by handling the installation of our products, which not only blend with the hotel's decor and style, but will provide long-lasting reliability and durability."

Pacific Coast Foam and PCF/Inside are located at 8585 Miramar Place, San Diego 92121. The telephone number is (858) 455-1274 or the company can be reached toll-free at 888-511-FOAM (3626). Visit the Pacific Coast Foam website at www.pcfoam.com.
