

NEWLY-RENOVATED SYCUAN CASINO GETS 'LAS VEGAS' STYLE DECORATIVE EXTERIOR FACADES FROM PACIFIC COAST FOAM

SAN DIEGO — March 1, 2001 — Pacific Coast Foam helped to provide Sycuan Casino with the same excitement and extravagance found at Las Vegas hotels and casinos thanks to a myriad of architectural shapes and accents which highlight the exterior of the newly-renovated 165,000-square-foot gaming and entertainment facility in El Cajon, according to Scott J. Buckley, general manager of Pacific Coast Foam, San Diego's largest supplier and installer of expanded polystyrene (EPS) foam architectural shapes and accents.

Pacific Coast Foam partnered on the Sycuan Casino with The Brady Company, a leading plastering company, to supply the Exterior Insulation Finishing Systems (EIFS) foam board which comprises the two-story casino, as well as the ornamental architectural foam trim and details, including decorative crown moldings, parapets, rings, waves, flowers, wave details, and even 14-foot interior columns made from foam. In addition, the company worked with Unique Concepts Coatings, Inc. to provide the EIFS foam board and decorative shapes and accents that adorn Sycuan's new four-story administrative building.

Pacific Coast Foam worked with a project team that included Group West Architects, CRSS, the general contractor, and The Brady Company, which handled the exterior coatings on the casino, and Unique Concepts Coatings, Inc., which provided the exterior coatings on the administrative building. Last year, Pacific Coast Foam also provided the EIFS foam board and decorative foam accents and shapes for the Viejas Casino and Outlet Center in Alpine.

Pacific Coast Foam and PCF/Inside are located at 8585 Miramar Place, San Diego 92121. The telephone number is (858) 455-1274 or the company can be reached toll-free at 888-511-FOAM (3626). Visit the Pacific Coast Foam website at www.pcfoam.com.
