

PACIFIC COAST FOAM PROVIDES LYKEWOOD and LYKESTONE FINISHES TO MODEL HOMES AT CORNERSTONE COMMUNITIES' TERRAZZO AT TORREY DEL MAR

SAN DIEGO - September 24, 2001 - Pacific Coast Foam (PCF) has provided decorative accents and finishes made from LykeWood and LykeStone for the model homes at Cornerstone Communities' Terrazzo at Torrey Del Mar, an upscale new home community, according to Scott J. Buckley, vice president of marketing for Pacific Coast Foam, San Diego's largest supplier and installer of expanded polystyrene (EPS) foam architectural shapes and accents.

Buckley said the model homes at Terrazzo at Torrey Del Mar feature interior faux timber beams, corbels and crown moldings as well as exterior louvered and ranch-style window shutters - all made from PCF's LykeWood Series. In addition, the homes feature decorative wall caps, spires, window pediments and sills in a concrete-smooth finish from PCF's LykeStone Series.

PCF's LykeWood Series is comprised of wood graining finish for interior and exterior applications in a variety of textures, including smooth, light and heavy graining. "It is so authentic you can't even tell it from real wood. You can choose to leave it natural, paint it or stain it to fit any decor and style," Buckley said.

On the Terrazzo exteriors, Pacific Coast Foam also provided LykeWood shutters, which offer the builder and architect reduced liability from water intrusion because there is no penetration into the structure's envelope by brackets and bolts used to hang the shutters. Rather, the LykeWood shutters are adhesively applied to the brown coat before the stucco color is applied. Buckley said PCF's LykeStone Series has also become a very attractive product to builders and architects because it looks and feels like real stone, including the "cold" feeling to the touch. He said LykeStone's durability factor is unmatched when the 100 percent synthetic acrylic-colored coating is applied to the hard-shell coated foam shape.

"Fireplace mantels and surrounds, columns, moldings and accents for the exterior and interior take on new authentic stone looks," he said. "Finishes such as granite, limestone, sandstone, granite and textured colored concrete are a few of the 'olde world' LykeStone coatings offered by PCF."

Cornerstone Communities' Terrazzo at Torrey Del Mar is an upscale community of 69 homes showcasing meticulously crafted exteriors influenced by Mediterranean and Tuscan inspired architecture. Three standard floor plans are offered along with numerous options. The Terrazzo sales office is located at 7623 Marker Road, San Diego 92130. The telephone number is 858-484-6016.

Pacific Coast Foam and PCF/Inside are located at 8585 Miramar Place, San Diego 92121. The telephone number is (858) 455-1274 or the company can be reached toll-free at 888-511-FOAM (3626).
